

The Ultimate Guide to

Vehicle Leasing

Are you new to
Vehicle Leasing?

Find out if it is right for
YOU and YOUR business

By Lesley Howes - The Car Lady

Hello, I'm Lesley,

The Car Lady!

*Thanks for taking the time
to read this guide.*

If you are completely new to the idea of Vehicle Leasing, it's a smart thing to do because you will be in a much better position to decide if it is right for you and your business.

What is your car

saying about you and your business?

We all know that first impressions count, and whether we like it or not, we are judged by our appearances – and that extends to the car we drive.

- Are you driving around an old out of date car?
- Are you parking it round the block and out of sight when you visit customers.
- What is that saying about you and your business?

*Well - for a small
outlay **you can
change all that...***

Lets have a look at how leasing works

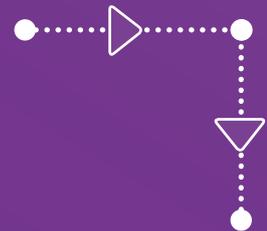

and see if it is right for you...

Leasing is an **alternative way** of financing vehicles instead of buying for cash, HP or maybe a bank loan, and the monthly payments are usually **a lot less than HP.**

You **never own the car** or van – think of it like long term hire.

Leasing allows you to drive a **brand new car** or van for a **low initial outlay.**

You may be able to drive a more expensive car than you imagined with all the **latest safety & economy features.**

The cars are all brand new so will have a **Three year warranty**

You choose any make and model

so no need to compromise

It is **fixed cost** – so no nasty surprises – you know exactly where you are.

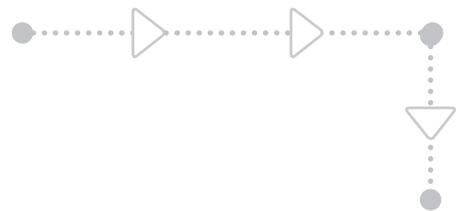

No need to worry about unexpected repair bills.

You can include all routine servicing, maintenance & tyres for **easy budgeting**.

You choose how long the Lease is for – 2, 3 or 4 years – and how many miles per year.

Easy disposal – your car is collected when your lease ends.

“We have got a brand new car which we love!”

Zoe Trodd,
Director,
Sevenoaks
Tutoring

“From the very first phone call to the last letting us know when the vehicle would be arriving at our door, the whole process was smooth, efficient and completely stress-free! We felt we were in safe hands with Lesley taking care of the organising, and we were right. Everything was processed efficiently, quickly and from our perspective, effortlessly, and we have got a brand new car which we love!”

And all this is available for both business and personal use!

Leasing allows you to
**keep cash in
your business!**

To be used for important things like GROWING your business, or to spend on MARKETING for example.

As Paul J Getty is quoted as saying " If it appreciates buy it – if it depreciates Lease it "

so why would you want to tie up huge chunks of your cash in a depreciating asset!

*"If it appreciates
buy it -
if it depreciates
Lease it"*

- Paul J Getty

Should it be

personal or business?

That depends on your circumstances and who is going to drive the car.

Limited Company

If you are the Director of a Limited Company you may want to consider **PERSONAL CONTRACT HIRE** because you will not pay BIK (Benefit in Kind) income tax on the car and the company will not pay Class 1A National Insurance.

Added to that you will be able to claim your business mileage back at the higher rate – currently 45p per mile for the first 10,000 miles, without paying tax on it.

Personal Contract Hire rates are very competitive and, although you are unable to claim back any VAT on the payments, this is usually outweighed by the tax savings made.

Please always check with your accountant but, on the face of it, this should be the most tax efficient way to fund your new car.

SOLE TRADERS AND PARTNERSHIPS

In this case **BUSINESS CONTRACT HIRE** may be the best option, especially if you are VAT registered. Please check with your accountant if this is the most suitable way for you to finance your car.

Other things to consider...

“What if I want to hand the car back early?”

Leasing is not a flexible system – it just doesn't work like that. If you want to hand the car back early there will be some costs associated. Exactly how much will depend on how long you have had the vehicle and the length of the Contract. So if you are the sort of person who likes to change your car often and on impulse Leasing may not be for you.

“What happens if I go over the contract mileage?”

No problem. There is an excess mileage charge payable at the end of the contract. It is to give you some flexibility, and not designed to be penal. If circumstances change dramatically most of our lenders will allow contracts to be re jiggled at least once.

“I have heard of people getting huge bills at the end of the contract – is this true?”

The Leasing providers expect the vehicles to be returned in good condition commensurate with age and mileage. We are guided by the BVRLA . If the car or van is unloved or damaged it is not unreasonable to expect to pay for it to be put back into good condition. We suggest to our customers that any little defects are attended to before the vehicle is returned – that way you are in control of the costs.

(For more information visit www.BVRLA.co.uk)

Reducing your carbon footprint

and your costs...

“ Going green ” is very good for the environment – and your pocket. It is a fallacy that running your business by being considerate of the environment is expensive. When it comes to motoring it is quite the opposite. By choosing vehicles with low emissions you will save on fuel, your company car drivers will pay less tax (happy staff) and your business will pay less Class 1A National Insurance.

We find that customers, staff and stake holders like to work with a caring ethical business, so we'll help you to keep your carbon footprint as low as possible when it comes to your vehicles. It is good to be green.

Poor credit?

Important

Leasing is a form of finance, so if you have had any problems getting credit underwriting – or have had finance declined in the past – this is the time to tell us.

If we make credit applications on your behalf, which are then declined, it will leave a 'footprint' making it harder for you to get finance in the future, and there may be other ways that we can help you, so lets have a chat.

How much could

YOU save on your running costs?

Joy Barden,
Associate
Partner,
St.James'
Place
Partnership

"I am loving my new car, it is a dream to drive. But an unexpected and most pleasant bonus is the savings I have made!"

"I am saving £480 pa on car tax, £166 pa on insurance and a HUGE £2700 on fuel pa - this makes a total saving for me of £3346 pa = £278 pm. So my gorgeous new car virtually pays for itself.

I'm over the moon!"

We could
help you
like we helped
Joy too!
